

REMARKS:

In the Examiners Detailed Action of December 26th 2007, the Examiner stated the present application contained claims directed to 5 patentably distinct species.

The Examiner further required under 35 U.S.C. 121 the applicant to elect a single disclosed species for prosecution, to which the claims will be restricted. The applicant elects "Species A" Disclosed as the preferred embodiment.

The Examiner informed the applicant that a reply would also require a listing of all claims readable on the elected species. The applicant respectfully submits the following numeric list:

Claims 1, 2, 3, 4, 5, 6, 7, 9, 10, 11, 12, 13, 14, 16, 17, 18, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 36, 37, 38, 39

To the best of the applicant's ability, respectfully submitted.

A handwritten signature in black ink, appearing to read 'clhoke', written in a cursive style.
